A MEETING was held in W. Fielders' office on Friday evening to decide about sports for May 24th. W. Fielders in the chair; St. Geo. Jellett, secretary. Messrs. McMahon and Dickson, representing the sports committee of South Edmonton were present to confer with the meeting with a view to arranging to have the sports on each side of the river take place on alternate days. The meeting decided to adhere to the 24th as that was the day on which the Calgary men expected to play Edmonton. It was decided that two members from each of the athletic clubs in town should be appointed to see what clubs could play Calgary, the captains to choose their representatives. Messrs. Foster, Edmiston, Adamson and Fielders were appointed to take up a subscription. Messrs. Fielders, Edmiston, Adamson, Glover, Cairney, J. Looby, C. D. T. Becher and E. Looby, were appointed a committee to get up the sports. The meeting was very well attended.

SEEDING is in full swing all over this district. The land was never in better condition, the only drawback being that it is still too damp in low places. The weather for the past few days has been all that heart could desire, bright, warm and calm. Although the season has opened late there is every prospect that growth will commence earlier than usual. The great danger in this western country is the drying nature of the spring weather up to the latter part of May, when rain begins to fall. The earlier the spring opens the longer time there is for the ground to dry out, and so stunt and delay early growth. With the ground full of moisture as it is now unless the weather should be altogether remarkable there is not time for the ground to dry out before the commencement of the rains. It will be noticed that this is one of the seasons in which the farmer with a lot of fall plowing done is away in the lead.

CORRESPONDENCE.

EDITOR BULLETIN, DEAR SIR:
According to promise I send you a few notes of my trip from Edmonton to Duluth.

The Edmonton district is now attracting much attention and every train arriving is crowded with a good respectable class of farmers from all parts of Canada and the Northern States, from the Atlantic to the Pacific; all eager to secure farms in the far famed valley of the Saskatchewan, expressing surprise at finding the snow nearly gone and the country settling so rapidly.

On Friday, April 14th I left Edmonton for Winnipeg, arriving there on Sunday 16th, finding the city crowded with emigrants from the east and south.

The snow still lay on the ground to the depth of three or four inches in the vicinity of Winnipeg but the weather was mild and spring like.

Proceeding south on Tuesday from Winnipeg to Duluth via Grand Forks and Elk River, Minnesota, I was surprised to find the Red River Valley almost entirely under water, houses and barns surrounded and cattle and horses helplessly standing on the highest ground they could find in a pitiless snow storm which soon became a fierce blizzard.

In Fargo, North Dakota, the river rose 27 feet and fears are expressed that the Grandin elevator is undermined, as it is leaning fully two feet to the south and may collapse at any time.

April 20th and 21st the blizzard raged furiously, delaying trains and causing serious loss of life among horses and cattle on the prairies of Minnesota and Dakota, and should rain ensue the position of farmers in the States mentioned will be disastrous indeed, as their lands are covered with water, their buildings in some cases undermined and it will be impossible for them to get any seedling done in time to ensure a crop of wheat.

Those who have left Dakota and Minnesota for Alberta have indeed every reason to congratulate themselves at having secured homes on the sunny slopes of Alberta where they can look down the steep banks of the placid Saskatchewan and easily realize that they are at least safe from disastrous floods, and will not find it necessary to use boats to visit their horses and cattle.

Yours obediently,

T. G. PEARCE.

Duluth, Minnesota, April 21st, 1893.

THE MICKLESON CASE AGAIN.
A rumor is current in town that Wm. Bell, of Red Deer, who was the means of bringing the murderer Ole Mickleson to summary justice last fall, is about to be arrested on a charge of murder. In case the rumor should prove correct it may not be out of place to recount the circumstances of the case. A murder had been committed within a few hundred yards of the Edmonton railway station in broad daylight and the murderer had escaped. A reward for his arrest or information that would lead thereto was offered over the signature of the police officer commanding the district. On the strength of this authority a number of citizens of Red Deer in the absence of any police, attempted to effect his arrest. He was armed and determined to resist to the last extremity, firing on the citizens a number of times, at short ranges. At last as he was about to enter a house in which at the moment were only two women, Wm. Bell, in returning Mickleson's fire, shot him dead. In doing as they did the people of Red Deer were acting under authority, they were discharging a public duty, and only fired in self defence. The only possible reason for Bell's arrest—if it is made—is that the commissioner of police desires to have revenge upon him for the wound which his vanity received by such an important arrest being made outside the force under his command. It will strike most people that he would be taking better means to prove his qualification for his position by paying better attention to the arrest of criminals rather than causing the arrest of those who have arrested them. It is indeed hard when peaceable citizens must either permit murderers to run at large around their premises or incur the enmity of those charged with the enforcement of the law for protecting themselves. Judging from the present case it seems as though people had better risk the instincts and necessities of the murderer than the wounded vanity of the commissioner of police.

After pointing out some of the hardships of the present tariff, as they appear to him, Mr. McCarthy said in his speech at Toronto last week: "What is to be done, you say? Are you going to admit the Yankees? No, I am not. The Yankees won't admit us, and I am not going to admit them. We started out to protect our interests, not against the Mother Country, where we have an open market and free trade, but against the Americans, who won't trade with us. When they lower their tariff I am willing to take down ours. I am confident Canadians can stand against the Americans in an open free market. Until they are prepared to give us fair play I do not think it would be reasonable or right that we should allow our manufacturers to be deprived of their markets, to be exposed to unjust competition which would prevail against them. England is our open market—the market which our government have been spending money in order to gain access to. There is a market we ought to cultivate. The duty of the Canadian people is to lower our tariff upon British goods, to increase our trade with Britain. Let our vessels take our goods there and bring their cargoes back. This is the policy I desire to see pursued."

The Calgary Herald of April 26th replies to the "Free Press" anti-Alberta article at length. The following are two extracts: "He might also have added that not only are there immense bodies of the richest lands alongside of the railways in the Territories, but that in our country—especially in Alberta—the climate of the country is milder than in Manitoba, being neither so hot in the summer nor so cold in the winter; that coal is found in inexhaustible quantities; that there are numerous rivers forming numberless water powers; that there is such variety of soil that while the wheat, oats and barley produced are the best on the continent, there is a dairy country, cattle country, sheep, farming country, a horse ranching country, and any other kind of useful soil, all of the best and all on the largest scale."

"As a matter of fact, the very best class of settlers were the bold, plucky men and women who penetrated to those 'isolated' districts and there formed prosperous communities. Why, if the Free Press' idea had prevailed twenty years ago there would have been no Winnipeg to-day, no Manitoba, no Northwest Territories worthy of the name, as settlement would have been confined to the 'fringe' of country adjacent to the St. Lawrence river and the great lakes."

Winnipeg Commercial, April 22: The weather is the most distressing feature. Snow and rain has fallen during the week, and the wind up is cold and bleak again. There is still no prospect of seeding in this district. Where the soil is light and rolling, a few days of fine weather would soon put the hand in condition for seeding, but on heavy, flat soil, it will take some time, with favorable weather, to put land in condition to seed. Some are beginning to express alarm over the crop outlook, on account

of the exceptionally backward spring, but there is still time to put in a full crop. Some alarm is being expressed that the water will be so high as to delay trade and traffic, on account of the high water in the Red river at Grand Forks and Fargo. Water will have to go considerably higher than in 1882 before any damage will be done here. The snow storm of Wednesday extended as far south as Chicago and points in Iowa and Illinois. 500 miles south of Winnipeg the fall of snow was heavier than here, being about 3 inches here, while some points south reported 6 to 10 inches of snow. A damaging hurricane accompanied the snow in Iowa and south, while the weather was calm here. There is snow on the prairie here as far west as Regina, but beyond that the country is bare.

A REPLY TO AN IMPORTANT QUESTION

Which is the best and cheapest Dry Goods Store in Town? is the question now frequently asked by the Settlers, who have recently arrived in this district. In answer to this important question, I would respectfully but emphatically reply, the

MANCHESTER HOUSE.

Dealing as I do almost exclusively in Dry Goods, I have always on hand a larger and better assorted stock than any house in Town. Prices too are cut so fine, that it is frequently remarked by those who seek quotations "Why you are selling as cheap as they do down east, and in fact in some cases cheaper."

Many of the lines have been personally selected in the best English Markets.

LADIES', MEN'S AND CHILDREN'S DEPARTMENTS

CORRESPONDENCE.

EDMONTON, ALBERTA, April 27th, 1892.
EDITOR BULLETIN: Sir—I would like to give my knowledge and opinion of the Edmonton district through your columns, for the benefit of other people who like myself are seeking a home. I came here four weeks ago and have been travelling extensively over this district ever since, giving it a thorough looking over. I have now located and wish to say that this country is good enough for me. Since I have been here we have had splendid weather. Seeding is now in progress. Produce raised here last year is of a very fine quality, especially the potato crop, which is astonishing. Stock of all kinds look well. In fact there are lots of good beef cattle now, and I have not seen any that seemed to be wanting for care, like some I have often seen in the States. I really think this is the best place for mixed farming that I know of, where a man can get a good farm for almost the taking. The immigration agents are doing all in their power to help settlers, in every way possible. At least I have found them very accommodating. To all bachelors I would say don't come without your girls, you will have ten times a better chance of success.

Yours respectfully,

J. C. JANSSEN,
late of Farmington, Washington.

Kamloops, B. C., Scotland. The reports that are so freely circulated in the coast papers which put the losses of stock at 50 per cent. of the herds, are not true as regards the district of Kamloops, B. C., and they are altogether greatly exaggerated as to other parts of the district. The ranchers, especially the larger ones, cannot say with any certainty what their own losses are. Conservative estimates place them at 10 to 25 per cent., those ranchers who provided fodder, and took care of their own stock having suffered the least, but those were generally of the class who had the smallest herds. The results of the severe winter on stock cannot be definitely known until the round-up in June.

The Griffin, Ontario, Packet of April 21st mentions a snowfall of several inches there on the 14th which remained two days. On the 26th rain and snow were falling. No mention is made of seeding having begun.

Kamloops, B. C. has been incorporated as a city.

A TRIP FROM ONTARIO.

K. A. McLeod returned from a trip to Paisley, Bruce County, Ontario, on Thursday's train. He has been absent about a month. He left Paisley on April 18th. Spring was very backward and plowing had not yet commenced. Near Toronto, however, farmers were plowing. From Toronto to North Bay there was not much snow but from North Bay west to Port Arthur winter was in full possession. The train was stuck for 27 hours in snow at Pearl river, not far from Port Arthur. There was some snow at Port Arthur and the bay was full of ice, but the ice had broken from around the shore. Between Port Arthur and Rat Portage the aspect was wintry, but more spring like from Rat Portage west. At Winnipeg on Sunday, April 22nd the ice of the Red River was still solid, but was expected to break soon. No plowing or sowing was being done between Winnipeg and Brandon, and some snow was still visible. A little west of Brandon seeding had started. At Regina it was snowing, when the train passed, there was still some old snow in sight with no sign of seeding having commenced. At Moose Jaw and westward there was no snow and plowing and seeding were in progress. As the train from the east was behind time the Edmonton train waited in Calgary for it, so that passengers for Edmonton were only in Calgary half an hour. There seemed to be considerable stir at Olds and Inuit-fall, with rather less at Red Deer. Wetaakiwin was passed in the night. An immigrant car was dropped from the train at Olds and a car of effects at Red Deer. The appearance of the country and the weather here is the most spring like Mr. McLeod saw during his whole trip.

SPRING SHOW.

The 1st spring show of the Edmonton agricultural society was held on Saturday afternoon on the race track. The exhibit of horses was excellent in numbers and quality, representing a large investment of capital for the improvement of the horses of the district. It is to be regretted that the offer of prizes for a show of bulls had no effect, not one being brought out. There were fifteen entries in the several classes of stallions.

In heavy draught with pedigree, four owners exhibited: J. C. Morrison two horses, Robert Walker and W. E. Mackenzie. The first prize of \$12 was taken by J. C. Morrison's "Peer of the Realm." The second prize and highly recommended was taken by Robert Walker's "Bonny Boy." J. C. Morrison's second horse and W. E. Mackenzie's were ruled out, for not producing the pedigrees of their animals.

In heavy draught stallions without pedigree there were only two entries. The first prize of \$12 was taken by L. J. Sanis' "Topman" and the 2nd of \$5 was taken by J. D. McAllister's "Royal Oak."

There were four entries of general purpose stallions by Messrs. A. Carson, M. Maloney, E. Fleming and Geo. Woolley. The first prize of \$12 was taken by E. Fleming's "Gleaner" and the 2nd of \$5 by Geo. Woolley's "Paddy."

In roadsters there were five entries, by M. McCauley, W. H. Stephens, Geo. Armistead, R. A. Macdonald and Theo. Fulton. The latter's horse "Victor Chief" was ruled out because he was not hitched to rig. The 1st prize of \$12 was taken by M. McCauley's "Blackthorn" and the second of \$5 by W. H. Stephens' "Jim Mitchell, jr."

When the roadster prizes were awarded a procession of horses shown was formed and paraded from the show ground down Jasper avenue to the hotel stables. The weather during the whole day was warm and calm, all that could be desired, and the attendance of spectators was large, all showing a lively interest in the exhibits.
